HORSE & RIDER PORTRAITS

NATURAL LIGHT SESSIONS TO HIGHLIGHT
YOU & YOUR PARTNER

FULL HORSE & RIDER

\$360 per session | 20-30 images | up to 1 hour

Session for horse and human, or multiple horses & humans together. We have a full hour to play. We can work in multiple outfit changes - we suggest at most 4 outfits - and work in a larger area getting more looks and images. Results in 20-30 beautifully edited images for your gallery.

MINI HORSE & RIDER

\$240 per session | 10-12 images | approx 20-30 minutes

A condensed version of our Full Session, the Mini is just a shorter length of time resulting in 10-12 beautifully edited images. Great for one outfit, one horse, smaller areas, updating your photo collection, etc. Also great for horses that might not have the patience for a full hour of photos. We like to keep all participants happy!

HOW TO DECIDE?

If you have multiple outfits or multiple horses - or if you have a large area you want to explore during your session, the Full Session is a better fit. For something more short and sweet - ideal for some updates to your collection of photos, an update for social media, your website, and/or your walls - the Mini Session might be just what you need. If you're unsure, let's talk about your vision, your horses, and you! We'll figure out together what works best for your photo goals.
